CONTROL PANEL

EXPERIENCE AZEROTH LIKE NEVER BEFORE With the Sound Blaster® World of Warcraft® Headset and Wireless Headset, you get cutting-edge technology and THX TruStudio PC for an unrivalled headphone surround gaming experience. A professional grade microphone aids you in communicating with your party or raid clearly while interchangeable headset lenses bearing the marks of your chosen faction and programmable color illumination shouts your allegiance for all to see.

### FEATURES & BENEFITS

#### Performance

Hear every battle cry and clash of weapons in amazing detail. THX TruStudio PC sound technologies create unprecedented levels of audio realism and includes stunning surround effects, producing virtual speakers around, above, and below you. While the detachable noise-canceling microphone gives you clear, precise speech delivery, ensuring your fellow players will hear every word.

#### Personalize

Make the headset your own by customizing the illumination and enhancing the audio experience to your liking. Declare your allegiance with interchangeable Horde and Alliance headset lenses, with additional lenses coming soon!

#### Premium

Settle in for that epic raid. The headset comes with oversized ear cups with soft leatherette padding, for an amazing comfort even during those marathon instance clearing sessions.

#### Connectivity

Choose the wireless headset that features advanced uncompressed wireless technology or get the wired headset for pristine high-definition digital USB audio. Either way, you can experience the same powerful sound from Sound Blaster whether you are raiding or out on a quest.

#### Software

World of Warcraft Audio Control Panel  
Configure settings easily with custom software that enables you to personalize the illumination of your headset as well as customize your audio experience. Works with both PC and Mac.
