12 REVIEW OF GROUP PERFORMANCE

CONSOLIDATED INCOME STATEMENT

Net Sales

Net sales for the first quarter of FY2014 decreased by 15% compared to the same quarter in FY2013. Revenue was lower in the first quarter of FY2014 due to the uncertain and difficult market conditions which continued to affect the sales of the Group's products

Gross Profit

Gross profit margin was 28% in the first quarter of FY2014 compared to 23% in the first quarter of FY2013. The higher gross profit margin in the first quarter of FY2014 was in line with the sales mix. The write-down for inventory obsolescence in the first quarter of FY2014 was for certain existing products following the introduction of new product models.

Net Loss

Net loss for the first quarter of FY2014 was US\$5.5 million compared to net loss of US\$4.5 million in the first quarter of FY2013. Despite the decrease in sales, there was an improvement in the operating results in the first quarter of FY2014 compared to the first quarter of FY2013 due mainly to the higher gross margin and reduction in operating expenses. Net loss in the first quarter of FY2014 included other gains (net) of US\$1.4 million, compared to other gains (net) of US\$4.9 million in the first quarter of FY2013.

Selling, general and administrative expenses in the first quarter of FY2014 decreased by 8% compared to the first quarter of FY2013. The decrease in selling, general and administrative expenses was due mainly to lower level of sales.

Research and development expenses in the first quarter of FY2014 decreased by 16% compared to the first quarter of FY2013. The decrease in research and development expenses was due mainly to costs savings resulting from the divestment of a subsidiary company, ZiiLABS Limited, in the second quarter of FY2013.

Other gains (net) of US\$1.4 million in the first quarter of FY2014 were due mainly to foreign exchange gain of US\$1.3 million. Other gains (net) of US\$4.9 million in the first quarter of FY2013 were due mainly to foreign exchange gain of US\$4.0 million and gain on disposal of property and equipment of US\$0.8 million pertaining mainly to the disposal of a property owned by a subsidiary in the United States.

The functional currency of the Company and its subsidiaries is predominantly the US dollar and accordingly, gains and losses resulting from the translation of monetary assets and liabilities denominated in currencies other than the US dollar are reflected in the determination of net income (loss). The exchange differences were due mainly to the cash and cash equivalent balances held by the Group. Cash and cash equivalents were held mainly in Singapore dollar, with the balance mainly in US dollar, Euro, British Pound and Japanese Yen. The exchange gain in the first quarter of FY2014 was due mainly to the appreciation of these currencies against the US dollar and the exchange gain in the first quarter of FY2013 was due mainly to the significant appreciation of the Singapore dollar against the US dollar.

BALANCE SHEETS

The decrease in cash and cash equivalents was due to net cash used in operating activities (see below). Included in cash and cash equivalents was US\$4.5 million cash in an escrow account arising from the divestment of a subsidiary in FY2013 that will be released to the Group between 12 to 18 months after the completion of the divestment in November 2012. The increase in trade receivables was due mainly to seasonal variations. Higher level of inventories as at 30 September 2013 was in anticipation of higher sales in the holiday season. The decrease in other non-current assets was due to a reduction in deferred expenses.

CONSOLIDATED STATEMENTS OF CASH FLOWS

Net cash used in operating activities of US\$12.3 million in the first quarter of FY2014 (Q1 FY2013: US\$11.7 million) was due mainly to the operating loss for the period and increase in trade receivables and inventories, offset partially by decrease in trade payables.

Net cash provided by investing activities and financing activities in the first quarter of FY2014 were not material.

13 VARIANCE FROM PROSPECT STATEMENT

There has been no significant variance in the operating performance of the Group in the first quarter of FY2014 as compared to the prospect statement disclosed in the announcement of results for the fourth quarter and full year ended 30 June 2013.

14 PROSPECTS

The Group expects no major improvement in the difficult and uncertain market conditions, and the overall market for the Group's products remains challenging. However, revenue is expected to be higher for the holiday season in this quarter compared to the current level and the Group expects an improvement in operating results for the quarter from the current level.

15 DIVIDEND

No dividends have been recommended in the first quarter of FY2014 and no dividends were recommended or declared for the same period last year.

16 INTERESTED PERSON TRANSACTIONS

The Group has not obtained a general mandate from shareholders for Interested Person Transactions.
