

Dominate Your Opponents With Supercharged Game Audio!

The Sound Blaster® X-Fi MB2 software suite is a powerful audio platform equipped with cutting-edge audio technology and THX TruStudio Pro. Sound Blaster X-Fi MB2 offers premium audio quality, effects and features for ordinary PC systems equipped with only basic onboard audio.

THX® TruStudio Pro™ is specially designed to bring the same great audio experience found in live performances, films, and recording studios to the PC. THX TruStudio Pro provides groundbreaking technologies that are the product of years of collective experience and research by Creative and THX. Together, these technologies deliver the fullest audio experience for music, movies and games, while remaining true to the source and intention of the artists who created it.

For gamers, get ready to be blown away by the amazing realism from the unrivaled headphone surround and gaming sound enhancement technologies delivered by Sound Blaster X-Fi MB2.

THX TruStudio Pro audio technologies create unprecedented levels of audio realism, add dynamics and punch to every gunshot, explosion and gaming sounds; and includes stunning surround effects, producing an incredibly realistic surround sound experience even from just a pair of stereo headphones.

Creative EAX® ADVANCED HD™ 5.0 features state-of-the-art multi-environment rendering and reverb modeling, delivers an amazingly realistic and immersive 3D gaming experience than your motherboard audio ever will.

Creative VoiceFX¹ technology allows you to morph your voice into another persona to help you stay in character and add flair to your online role-playing experience.

Creative ALchemy is a powerful tool that restores EAX® effects and 3D surround audio for legacy, DirectSound3D game titles running on Windows Vista and Windows 7, re-enabling that same great gaming experience.

Sound Blaster X-Fi MB2 comes with native OpenAL support, ensuring compatibility with a wide range of PC games developed with OpenAL for an incredible 3D audio experience.

For PC entertainment enthusiasts, get more out of your music and movies. Adding an enhanced level of realism for your movies and turning your downloaded music into your very own personal concert with Sound Blaster X-Fi MB2. Enjoy all of your music and movies in surround sound on virtually any speaker system or headphones.

THX TruStudio Pro audio technologies restore the details and vibrance back to your compressed audio; enhance music and movies to make them sound livelier. What's more is the technologies give a whole new, 3Dsurround sound dimension to enhance the natural sense of audio depth and spaciousness by creating virtual surround sound channels; stereo content or multi-channel content played over stereo speakers and headphones will sound as if it's coming from all sides while voices remain centered in front and the original balance and timbre is preserved.

THX TruStudio Pro Dialog Plus enhances the voices in movies for clearer dialog, allowing the listener to hear the dialog over the rest of the soundtrack and over ambient noise in the listening environment.

Other audio technologies such as EAX® reverbs and a 10-band graphic equalizer allow you to enhance your music even more. These essential audio effects and controls are conveniently placed in a central and intuitive Sound Blaster Console. In addition, a suite of cool players are included to enhance your PC music listening experience, giving you full control over your music streaming and integrates seamlessly with your iTunes and Windows Media libraries.

Sound BLASTER X-Fi MB2

Dominate Your Opponents With Supercharged Game Audio!

TRUE STUDIO AUDIO EXPERIENCE

The THX® TruStudio Pro™ suite of technologies features:

- o THX TruStudio Pro Surround™
- o THX TruStudio Pro Crystalizer™
- o THX TruStudio Pro Speaker™
- o THX TruStudio Pro Smart Volume™
- o THX TruStudio Pro Dialog Plus™

Easy-to-use setting provides intuitive control to enhance your audio playback with THX TruStudio Pro enhancements such as immersion control, dynamic range restoration, low-frequency boost, dialog boost, and automatic volume leveling.

THX TruStudio Pro Surround
Control the level of audio immersion in music, movies and games.

THX TruStudio Pro Crystalizer
Enhance music and movies to make them sound livelier.

THX TruStudio Pro Speaker
Enhance the sound quality and bass of any speaker system for a better listening experience.

THX TruStudio Pro Smart Volume
Adjust the loudness of your audio playback automatically to minimize sudden volume changes.

THX TruStudio Pro Dialog Plus
Enhance the voices in movies for clearer dialog.

Sound Blaster Console

All-in-One Console that provides Sound Blaster effects in addition to THX TruStudio Pro. Gives you intuitive access to essential audio features such as speaker settings, EAX, 10-band EQ, VoiceFX¹ and Mixer.

Sound Blaster Jukebox

Easy-to-use one-stop Gadget to control music playback with playlists that already constructed in your iTunes or Windows Media Player.

Creative Music Server

All-In-One audio player and management tool that gives you full control over your music streaming and integrates seamlessly with your iTunes and Windows Media libraries.

The Multi-Streaming feature easily allows you to playback different music tracks simultaneously, to various preferred playback devices, such as Speakers, Headphones, Digital Output, HDMI or even a Creative Wireless Audio device.

VoiceFX¹

Transform your voice with the magic of VoiceFX, simply have wacky conversations with friends and family over Internet and in online games.

EAX[®] ADVANCED HD™ 5.0

Realistic EAX 5.0 Sound Effects in Games. Hear crackling gunfire and earth-shattering explosions. EAX 5.0 delivers realistic sound effects that pull you into the game.

Creative ALchemy

If you are using Windows Vista or Windows 7, Creative ALchemy restores the surround sound for the same great gaming experience.
